This is to accompany an amendment to Fair Share Action's 2012 Pre-Election report. The amendment adds an in-kind contribution of \$47,620.20 in the form of polling information shared with us by House Majority PAC. We did not report this expense on the original Form 3x because we did not realize that the information was intended as an in-kind contribution and to the best of our knowledge, we received no records or other statements informing us of its estimated value.
